Evelyn Fischer, and One Azalea-Chrysanthemum Plant in Bloom

AZALEA CHRYSANTHEMUMS are fine for cutting and excellent for border planting. They prefer a light loamy soil, well enriched with leaf-mould, but no manure or chemical fertilizer should touch the roots; a little bonemeal and a light top-dressing of lime should prove beneficial. They will thrive either in partial shade or full sunlight, but see that the moisture supply is good at all times.
